## BALDHEAD CLUB

One is Being Organized.

Perhaps this report is a joke, but one thing is certain a baldhead is no joke to the man who wears it.

A club of baldheads formed in every city in America would be a good thing if its members could be induced to parade halless, through the main streets.

The writer would suggest that some of the members carry banners with inscriptions of such a character as to

warn those who still have hair, that baldness is unnecessary; that in nearly every case it is the result of carelessness.

Banners inscribed as follows would be appropriate:

"We let the dandruff germ do it."

"The time to save the hair is when you have hair to save."

"When we were young, the dandruff germs worked every blessed minute. They dug our hair out by the roots, and now we aren't in it."

The best banner of all would be this: "We didn't use Parlan Sage."

Kelly & Pollard sell Parlan Sage for 50 cents a large bottle, so do live druggists everywhere. It is guaranteed to stop falling hair, itching scalp and to destroy dandruff germs and remove dandruff in two weeks, or money back.

The final meeting of the El Paso Health League was held at the Y. M. C. A. Thursday. The report of the treasurer showed \$752.95 in the treasury. The final report of the treasurer was received and accepted.

On motion it was decided to discontinue the work, due to the fact that the county was now conducting a free clinic. It was further ordered that the chair appoint a committee of three to act as trustees for the fund, maintaining and that this money was to be used for such charity work as would unanimously appeal to the three trustees.

The chairman appointed Rabbi Martin Zielonka, Dr. J. A. Samaniego and Rev. Henry Easter. It was also decided to give the report of the treasurer to the press, so that all the citizens would learn what had been done with the money. The report of the work done had been given to the press last month.

## AMERICAN CONSUL ISSUES WORD OF WARNING

Tells Investors to Beware of Tampico Real Estate Promoters.

San Antonio, Tex., Oct. 21.—So many real estate promoters from the United States have recently come to Tampico and begun operations and so many schemes to entrap unwary Americans into purchasing land which is either unfitted for cultivation or to which the title is not good that Clarence A. Miller, consul at Tampico, has sent forth a warning to prospective settlers or purchasers. He advises no one to purchase land without first making a personal investigation and then not until the title has been passed upon by attorneys versed in Mexican law. Consul Miller says:

"A number of American real estate promoters have come to Mexico during the last few years. Thousands of Americans have been induced to come to Tampico for purposes of investigation and investment. Many persons influenced by the glowing descriptions of the real estate companies have invested their savings in a few acres of land they had never seen. Others brought their families with them and had only sufficient money to make the first payment on a few acres. Numbers of such families have become destitute because of being without means to clear their lands and support themselves until they could produce something. The American people should be cautioned not to invest hastily and not invest at all in lands without making a trip of personal investigation."

Many Are Successful. "However, many Americans have been successful in this section in farming, fruit growing and cattle raising. Colonies of prosperous Americans are to be found at the following places: Chama, Soto La Marina, Colimbo, Los Esteros, and Altamira, in the state of Tamaulipas, and at Valle, San Diego, Las Palmas, Los Planas, Cocco, and Guerrero in the state of San Luis Potosi. A number have also succeeded in the northern portion of the state of Vera Cruz. The indications are that there will be a great many more northern people come down this winter and settle in this section."

## Some Light On a Burning Question

The oft meted question of the influence of clothes upon the wearer has decided itself. It is now conceded that clothes affect our moods, and ultimately must affect our habits of thought and feeling. Every man who recognizes the utility of good fitting clothes knows the thrill of confidence which follows him in his wanderings. We build clothes that give confidence to the wearer. They cost but little more than the ready-to-wear kind, which are bought out of stock.
